To His Excellency Richard Earle of Bellomont Capt Gen[ll] and Governour in Chiefe of his Majesties Province of New Yorke &c: and Vice Admirall of the Same.

The Humble Address and Petition of the Mayor Recorder Aldermen and Assistants of his Maj[ty] Citty and Corporation of New Yorke Conven'd in Common Council

[296] May itt please your Lordship

The Interest of the Crown was Never more Advanced in this Province then when the Inhabitants of this Citty Enjoyed their Just Rights and Priviledges and Never in Soe litle Esteem as Since they were Deprived thereof. the Incouragemt of trade being the Only Support of the Revenue and the Decay thereof in these late Years may be Justly (Amongst Other things) Attributed to that Grievious Law which tooke Away the Sole Bolting of flower & Baking of Biskett for Transportation from this Citty and placed the Marcate thereof att Every Planters door throughout y[e] Province by which means all trade is Reduced to Confusion and those y[t] have laid Out their Estates in this Citty for y[e] Accommodation of Traffique and in Expectation that the Rights & Priviledges they found therein Should be Continued to them and their Posterity are Now likely to Sinke and Perish. Wee therefore May itt please your Lordship think itt our duty with the Greatest of humility to Address your Excellency and lay before Your Lordships Prudent Consideration the decaying State of this Citty & Corporation who hath for these four years now Last past Groaned and Laboured under many burthens and Inconveniencies by Reason of the passing an Act of Assembly Entituled An Act Against unlawful by Laws and unreasonable forfeitures which hath Deprived this Citty of their Right of Sole Bolting of flower and Baking of Biskett for Transportation and hath thereby taken away the livelyhood of two thirds of the Inhabitants of this Citty which doe depend theron And Given the Same to About thirty persons in the Rest of the Government. And this Citty which was Accustomed to be the Granary of all these parts in America and Never had less in Store then fourty or fifty thousand Bushells of wheat [297] for the Accommodation of his Majesties Subjects is now Reduced to Soe great

want and Extremity that itt Cannot procure Corne Enough in Store to Sapply itts Inhabitants with their dayly Nessessities of bread and what in Town att Such Extravagant Rates that itt is become Very Oppresive to the poor. And whilst this Unhappy Act is in force itt will be Imposible to Reduce y^e^ Bakers of this Citty unto Any Order they Challenging the Same Benefitt that Every farmer of the Province Intitles himselfe to by the Said Act: this is not the Only Grievance that Attends the Said Law but all the Trade on flower and Biskett Sent to the West Indies hath Since the passing of the Said Act fallen under Such Disreputation that itt will Not Yield Soe much by four of five Shilings ℔ hundred as that which Comes from Other ports And soe subject to Corruption for want of due Inspection which Cannot be Effected whilst there is Soe great A Latitude Given for the Bolting that in Probability the whole Trade will fall in A few Years to the totall Ruin of his Majesties Revenue And Decay of this Citty. We therefore

May itt pleass Your Excellency Most humbly Supplicate Your Lordship that You would be favourably pleased to lay our Complaint before his Most Sacred Majesty And take y^e^ deplorable State of this Citty under Your Lordships Patronage & Protection & Represent the Injuries that Must attend his Majesty in his Government of this Province as well as the Absolute decay of this Citty if the Said Act Should Continue longer in force all which Shall be Ever Gratefully and humbly Acknowledged by this Corporation who Only Value themselves by their Constant Loyalty to his Majesty and their Strict and faithfull Obedience to his Majesties Laws which they will allways render by Supporting Your Lordship in the Administration of Your Government Against Your Adversaries with all that is Dear Unto us. and as in duty bound Shall Ever pray &c:

The Case of New Yorke

In the Year of Our Lord 1619 The Citty of New Yorke was founded by the People of the Neither Dutch Nation and had Granted to the Inhabitants then Settled by the States Generall of the United Provinces And the West India Company the Severall [301] Rights and Priviledges Recited in A Schedule hereunto Annexed which Rights and Priviledges were Successively Confirmed by all the Dutch Directors and Governours y^t^ were Commissionated And Appointed by the Said Staaets Gen^ll^ and the great West India Company and were held an[d] Enjoyed by the Inhabitants and Burgers of the Said City whilst the Same was under y^e^ power And Subjection of that Government And Upon the Surrender of the Same unto the Crown of England Among y^e^ Rest of the Articles Agreed Upon by Gen^ll^ Nicolls and y^e^ Rest of the Commissioners Authorized Under the Broad Seale of England itt was Agreed that the Inhabitants of the Said Citty Shoe[d] Continue to Possess and Enjoy all the former Rights Priviledges usages Customs & Practices held and Enjoyed by them And Remaine A Corporation without Any Other Change or Variation but in Lieu of Burger Masters and Schepens (the Name by which they were formerley Incorporated) they should Afterwards be term'd and distinguished by the Name of the Mayor and Aldermen of the Citty of New Yorke as by the Articles of Surrender and the Commission of Gen^ll^ Nicolls to the first Mayor doth Appear by all which Grants the Said Citty was Called and by all the Inhabitants of the Province Esteemed & Reputed the Metropolis Staple Porte and the Only Pub^lic^ Markett of the Province And without Interruption Enjoyed Many Rights and Priviledges And According to its Growth and Improvement was Govern'd in its Trade and Other Conveniencies by itts Own Laws And the Same Practices Confirm'd by Governour Lovelace During his Administration And Afterwards by the Dutch Governour when he tooke the Province from the English and when the Same by Articles of Peace was Redelivered to the Crown S^r^ Edmond Andros who was then Authorized to Receive the Province under the broad Seale of England did by his Proclamation Confirme & Ratifie the Said Right-

Privelidges unto the Said Citty of New Yorke The Said S^r Edmond Andres as a further marke of his Care [302] *of his Care* of his Majestys Interest and for the Encouragem^t And Propogation of Trade did by his Proclamation Prohibitt the Transportation of wheat that the same might be Improved by the Inhabitants of this Citty in Bolting itt to Flower & to Bake Biskett for Transportation and for their Encouragment did by Order of Councell Confine the Sole Bolting of flower and Baking of Biskett for Transportation unto this Citty Under the penalty of forfeiture which Privilidge was Confirmed by Coll Dongan and the Citty Continued in the Enjoyment of itt untill the Year 1694 when by an Act of Assembly Entituled An Act Agt unlawfull by Laws and Unreasonable forfeitures they were dispossessed of all their Said Rights And Every Planters house in the Province made a Mercate for the Sale of wheat and Bolting of Flower & Biskett by which means the Inhabitants of this Citty hath been often Reduced to the Extremity of the want of Bread to the great Oppression of the poor. And this Citty which formerly (when itt Enjoyed the Sole Bolting of flower) was the Granary of all this Continent of America there Never being less then fourty or fifty thousand Bushels of wheat in Store for the Supply of Any Exigency that might happen for his Majesties Service but Since they have been deprived of that Priviledge there Hath been Scarcely One thousand Bushells in store to Supply the Necessity of y^e people with bread. And this Calamity hath not Attended the Citty Alone but hath had the Same Effects throughout the Province for through this Libertisme of Trade and Confusion of Mercate the whole Government is Reduced into An Anarchy Every man doing what seemeth Good in his Own Eyes and particularly those that Bolt in the Country have Corrupted the flower they Bolt with A Mixture of Other Grains with wheat to such A Degree that the Reputation of New Yorke flower which formerly was in Such Esteem in the West Indies that itt was Sold att A higher Rate then Any Other and now fallen soe [303] Low that itt will not Yield by five Shillings ℔ Cent. Soe much as Others and the Complaints from the Indies Soe Numerous that y^e Whole Trade is likely to fall and Perish. And the Trade of the Province Since the Removall of the Bolting from this Citty is Sencibly Decayed and by that Means the Revenue much Lessned Soe that the hurte and Prejudice that hath Attended y^e Licentious Bolting throughout the Province is Soe Obvious that itt will Not Admitt of A Contradiction when the following State is Considered.

When the Citty Enjoyed the Bolting these Advantages did Accrue to the Government. from the year 79

There was in Town when the Bolting began in the year 1678 Only 343 houses in the Year 1696 594 New buildings added which Increase Only to be Attributed to the Bolting.

The Revenue in Years 78. 79. 80 Not Exceeding 2000[l] did Afterwards Annually Encrease that itt Amounted in the year 1687 to 5000[l] and if itt had been duely Inspected would have Amounted to Near 7 or 8000[l] Since the year 94 that the Bolting was Removed Revenue Decreased. There was in the Year 78 3 Ships 7 Boats 8 Sloops. There belonged in the year 94 60 Ships 40 Boats 62 Sloops Since which time Navigation Decreased. in the year 78 did not Kill above 400 beefs in 94 near 3000 Killed Lands were then of Low Vallew now Advanced to ten times their Value Since the Bolting att New Yorke of the 983 houses that are in New Yorke 600 of them Depend Upon Bolting In the Country there are only three Countys (Viz[t]) Kings Queens & Ulster County and in them all Not Aboue thirty Bolters which Enhanse all the wheat of the said Countys for their Private Gains Soe that 100 feed 30 000 families Must Perish att New Yorke if the Bolting Act Continues in force in the 3 Counties Not 500 families in New Yorke aboue 8000 Souls Soe that itt is plainly Manifest that these following Inconveniencys must Ensue if the Act Continue in force.

[3?] The Revenue & Trade of the Province
The Navigation
The Granary att New Yorke for y[e] Supplying in time of Exigency
The Buildings of New Yorke fall to Decay
The People Desert
The Government become mean & Despicable for want of A Support
The Money departs Out of the Province to Our Neighbours and all things Reduced to Confusion Even to the dissolution of y[e] Province

The Recorders Letter to y[e] Committee Appointed in Common Council to Address his Majesty.

Messieurs Jacobus V[r] Cortlandt Johannes Kip Brandt Schuyler Robt Parkins Aldermen And You the Rest of the Committee Appointed in Common Council to Address His Majesty

Gentlemen

I am Truely Concern'd for the great heate I Observed Among You att our last Meeting, att the halfe way house but the More when I Can See no Ground for them if wee Can Spare time to Reflect upon the Concern that is under Consideration wee will finde itt of No less

[illegible] then the livelyhood of all the Inhabitants of New Yorke and of [illegible] great Importe itt is to Manage that Affair with the greatest dis[illegible] wee Can make our Selves Master of You may all Judge. if my Memory doe not faile me the Mayor Called A Common Council and desired their advice Concerning the dayly Complaints he had of the want of bread & how itt Might be Remedied whereupon an Inquiry was made into the Quantity of Corne that was in the Citty and there was Only found About Seaven hundred Schepels of wheat which was Judged not to be Sufficient for bread to the Inhabitants above A Week and did Assign the Cause of that Scarcity to proceed from An Act of Assembly Intituled An Act Agt unlawfull [305] Bylaws and Unreasonable forfeitures which taking away the Mercate &c: from the Citty and placing itt att the Door of Every Plantation in the Province itt was Impossible to have the Inhabitants Regularly Supplyed with bread unless the Mercate &c: was Restored Again to the Citty to which the people Might have Recourse for their dayly Subsistance with bread and that this Violence being done to the Citty by the Said Act of Assembly There was litle Grounds to Expect itt Could be Repealed here therefore Unanimously Agreed that an Address Should be made unto his Majesty for Repealing the Same and Restoring to the Citty the Sole Mercate of Corne and Bolting of flower and Baking of Biskett for Transportation &c: And that the Same Might be Effectually done that his Excell[illegible]cy and Council Should be Acquainted with what Should be Resolved therein and their Assistance desired therein to Avoid All Misunderstandings & Obstructions in Soe weighty And Soe Needfull A Designe And Appointed A Committee to Examine the Rights and Privileges of the Said Citty and to draw an Address unto his Majesty for the Obtaining the Premisses which Committee Appointed Alderman Cortlandt & Kip to Speak to me being Acquainted with the Citty Rights to Draw y[e] Same Pursuant to the Said Order. I did Draw an Address or Petition to his Majesty And in the Consideration thereof did think itt the best Method to lay first before his Majesty the Motives that Induced the Inhabitants to Transporte themselves from their Native Countrys and Next upon What Inducemt they Planted themselves and laid Out their Estates att this place and then the Advantages that Did thereby Accrue Unto his Majesty in the Encrease of his Revenue and Empire And to what a Degree itt had been Advanced Since his Majestys Reign And that itt would have Continued Growing to greater perfection if [it] had not been discouraged by the Aforesaid Act of Assembly which tooke Away the Mercate from New Yorke And the Other Benefitts which were the Only Cause of the En-

crease & Advancement [306] thereof And that if Not Again Restored then the Inhabitants Must Either perish or Transport themselves unto Other places which will lay the Said Citty and its Improvements waste & by that Lesson his Majesties Said Empire. In this Method I have laid the present State of the Citty before his Majesty in the Address or Petition I Transmitted Unto you and that the same is true in all its Circumstances I have not only Maintained itt with Arguments that was therewith sent You but also Directed You to finde the Orders and Grants of y^r Respective Governours and Councill of the Province Confirming the same to the Citty.

Now Gentlemen this being the Method this being the truth According to the Resolves of Common Council where is the Defect what is the Cause of Such heate. Yea there is Cause the Stile is Defective itt is not done with Suitable words but with Billingsgate language that lys att my door and I think I can Justly Defend it therefore Allay Your heats and I will both Vindicate the language And Save the Government from Arraignment as falsely Suggested. itt Seems Upon Inquiry y^r Government is Arraigned and the Unseemly language are contained in these words ("And in that Growing and flourishing State itt had Continued if Your Majesties Benign favours and Protection to your Majesties said Citty had not been Interrupted by an unaccountable And Rash humour that Seized Upon the Assembly of this your Majesties Province Precipitating them into Such a Convulsion that w^thout thought or Consideration they Unadvisedly passed an Act Entituled An Act Agt unlawfull by laws and Unreasonable Forfeitures[?"]. I thought his Majesty was to be Addressed to Repeale this Act that was and is the Cause of the want of bread Amongst us And since itt is Such in what terms Shall itt be Represented Shall wee Speak unto his Majesty in an Unknown tongue or Shall *be* [we] Magisterially Require him to Repeale A Law without discovering Its Defects or Assigning the hurte itt does himselfe or his people [307] Or Shall wee pray him to Repeale A Law that was past upon due Deliberation And in the Consideration thereof their was weighed all the Advantages and disadvantages that might happen to y^r Subjects in the Province and that all persons that had Anything to Say in defence of these unreasonable bylaws & unlawfull forfeitures (So termed) that was by the Aforesaid law made Voide were heard And thereupon itt was Apparent that the Confining of y^r Mercate of Corne & Bolting &c: to New Yorke was A Grievance & hurtfull to the Province And itt did also Appear to be more for his Majesties Interest And the good of all his Subjects in the Province that the Same Should be att Every Planters Door Rather than

art New Yorke. if upon these terms his Majesty was to be Addressed how Impertinent Should wee be in the first place And in the Next how undutifull and Rebellious And in the last how unreasonable and Unjust and troublesome Should wee have been. What then Shall wee doe Shall wee Speak truth and Say that itt was Wickedly & Malitiously Contrived to take Away the livelyhood of two hundred families that Dells in New Yorke And Give the Benefitt to About thirty families that Dells in Ulster King & Queens Countys. or Shall wee Say that they to the Mercate from New Yorke that about Eight thousand Soals therein Should perish for want of bread to Give plenty to About 1500 that are in the Aforesaid Counties or Shall Wee Say that Whereas New Yorke by the Revenue and Aditional Duty brings the King five or six thousand pounds p Annum they will Ease New Yorke of that Burthen and the Said Counties that hes now the Benefitt of the Mercate & Mercate will for the future punctually pay the Said Sum and Als the third of the Taxes that New Yorke pays or shall wee Say that the Said Act hath Given Liberty to Any Number of persons that Can twenty or thirty thousand pounds to buy all the Corne in the Pro- and to force the Inhabitants thereof to Give them their price or 20 Shillings p Bushell Otherwise Must Remove or Starve for want where there is no certaine Mercate Affixed there Can be [308] Forestalling nor Forestalling to bring the purchasers under Penalties of these Laws. Now all these are truths and the Naturall that Attends the Said Law, and if [it] Should much hinder if not Quite be really put in Practice and if You Express itt Nothing but truth but yett have not been soe Uncharitable, in what Smooth Terms Shall Wee then Express the Truth And to His Majesty of the Evills the Said Act has brought and dayly what more Modest Could be Invented to the truth before His Majesty then to Assign the Cause of all these Evills that doe threaten the Citty, to proceed from A Rash humour which is An Apology and Excuseth the failings of the best of men And what answer Shall be made unto his Majesty if he Should Aske have not I Granted You an Assembly has Not yt Citty of New Yorke four Burghers in the Said Assembly how Came that they were not heard in their Objections Against the Said Law if the Said Act was not Reasonable why did not You make Your Defense there why doe you trouble me with Matters that Can be better discussed Upon the place where there must be Plenty of Evidence to Illustrate the truth, I am Apprehensive You are Clamorous for having Given You the power to make Laws You doubtless weigh Every thing for the publick good what Answer Can be made to

these Queries but the truth it was Conceived by A Rash humour itt was hastily passed and wee had not time to make our Defence they wear Soe fond of the thing that they would not have Patience to hear what might be Objected And Soe having No Reliefe but from your Majesty is the Cause of Our Application if this be not Modest I Know not what belongs to Modesty And that wee might have y^r Assistance of his Excellency and Council in Our Said Address what Could I doe more then to fix the Rashness upon the Assembly And to leave his Excellency And Council Out & as in truth itt was made that house both the Contrivor & hurryer of the passing the Said Act. and yt this is Soe Evident & Can meet with No Other Just Construction I doe Apeale to the Stile of his Majesties Letters Pattents which [309] Calls the house of Representatives the Assembly and itt being to the King wee Address Knows best his Own Stile besides the Printed Votes will also tell You, that itt is the Customary Stile from his Excellency and Council in all Messages to the house Soe that I think itt is Sufficiently Manifest there is no Arraingment of his Excellency and Council as was Unjustly Objected. I can See noe Reason why my writings Should have been Soe Exposed to the Censures of those that Neither Knew y^e Motives Nor the truth of what was Transacting. I hope I have Sufficiently Removed all the Obstacles that Produced the heats att our last Meeting what does there Now Remaine but that You Communicate this my letter Unto the Mayor and Council together with the Address and Reasons for the Maintaining itt and Lett them Judge if there has been Either Departure from the Resolves y^e Duty. I have no Cause to Change my Minde I did allways think that the Improvement of the Citty was the Encrease of his Majesties Empire & Interest and the Only Benefitt of the Province in Gen^ll that itt Could or Can Receive therefore Knows Nothing of Greater Moment in the whole Governm^t than that the Same be duely Regulated Either by Appointing the Mercate att the Citty Again or att Some Other place of the Province to which the Subjects may have Recourse for bread Rather than perish by Stupid Ignorance. I dare Likewise boldly Affirme that in the whole world where there is Any Setled Governm^t Even under the barbarousest of Constitutions there was Never A greater Act of Improvidence than to take Away the Mercate of Corne from One place without fixing itt att Some Other Certaine place within the Same whereunto people that Neither plow nor Sow nor Reape May have Recourse to buy bread for their Natural Subsistance. I have Now Wearied You to much yett I Could not Say less but to Silence all gainsayers and that the truth may be manifest without Malitious Misconstructions I doe Again desire You to lay be-

fore the Council Your Proceedings that all things may be Accomodated for the publick good & that the Subjects may not longer Suffer by our foolish Mistakes.

I am Gent Your Most humble Servt

Ja: Graham.

[310] Reasons Humbly Offered in Defence of y^e Rights & Priviledgs of his Majestis Citty of New Yorke in America.

The City of New Yorke was first founded by the people of the Nether Dutch Nation in the Year of Our Lord 1619 And they had Granted to them by the Staets Generall of y^e United Provinces and the West India Company Sundry Rights and Priviledges that are Recited in A Schedule hereunto Annexed which Rights and Priviledges have been Successively Confirm'd by all the Dutch directors & governours that were Commissionated and Appointed by the Aforesaid States Gen^ll And the Great West India Company and were held And Enjoyed by the Inhabitants & Burgers of the Said Citty whilst the Same was under the power and Subjection of that Government And Upon the Surrender of the Same Unto the Crown of England. Amongst the Severall Articles Agreed Upon by Generall Nicolls and the Rest of the Commissioners Authorized Under the broad Seale of England did Confirm the Inhabitants of this Citty Should Continue to Possess and Enjoy all the former Rights Priviledges Usages Customs And Practices Used Enjoyed by them and Remaine A Corporation without Any Change or Variation but in Liew of Burgo Masters and Schepens the Name by which they were formerly Incorporated they Should Afterwards termed And Distinguished by the Name of the Mayor Aldermen of the Citty of New Yorke as doth more fully Appear by the Aforesaid Articles of Surrender and the Commission of Gen^ll Nicolls to the first Mayor of the Said City after the said Surrender Relation being thereunto Whereby itt is Manifest that the Said City doth Lawfully Challenge A Right to all these Usages & Customs as formerly held and Enjoyed and [311] Though the Said Customs Cannot strictly be Soe termed According to the Laws of England Yett they are of the like force having been allways without Controule or Contradiction Since the first Settlement of the Said Citty by having been allways the Metropolis Staple Porte and the Only publick Mercate of the whole Province and hath allways without Interruption Enjoyed all the Aforesaid Priviledges According to Its Growth and Improvement. and Soe by that Means hath been allways termed

An Ancient Citty and that Justly there being Nothing more Ancient in this Province then the time when itt was first Settled and att that time itt was Incorporate by the Name of the Citty of New Amsterdam and Govern'd in its trade by its own Laws and Albeit itt is not one thousand Years old Yett itt is Older then Any Other Citty Corporation or being within this Province all or most of the Settlements in the Same proceeding from itt. And fell upon the Improvement of Tillage whereby Graine is become the Stable Commodity of the Province and the Cittizens of the Said Citty No Sooner perceived that there were greater quantities of wheat Raised than Could be Consumed within the Said Province but they Contrived and Invented the Act of Bolting by which they Converted the Wheat into flower And made itt A Manufacture not only profitable to all the Inhabitants of the Province by the Incouragement of Tillage and Navigation but likewise beneficial And Commodious to all his Majesties Plantations. and the Improvem thereof in this Citty is the true and only Cause of the Growth Strength and Encrease of Buildings within the Same and of the Riches Plenty of Money and the rise of the Value of Lands in the Other parts of the Province But the liveli hood of all the Inhabitants of this Citty doe Chiefly Depend thereon. And this Hath been the Sentiments of all the Governments and of those that have had the power under the Crown of England to Rule y^e Said Plantation as itt doth Appear by their Severall Orders and Proclamations making the Said Citty the Only porte Prohibiting from time to time the [312] Transportation of wheat and Appointing that No flower Should be Bolted or Biskett baked for Transportation but att this Citty. Now the Reason why this Citty was Soe Incorporated & had Granted to them the aforesaid Rights and Privileges is because the first founders of the Same were not Suffered by the then Government to Extend themselves into particular Settlements Untill first there should be Gathered together A Sufficient Number of People att this place that Might be of A Reasonable force for their Common Security & defence Whereupon they began to fortifie and finding this place of their scituation to be Very Barren and unfitt by their Industry to make them Any Return for their Subsistence itt was therefore Projected that all Such as would fix themselves att this place Should only Adict themselves to trade for the Accommodation of those that Should goe Settle in the Country y^t they might be plentifully Supplyed with such things as was Necessary for Cultivation And likewise that they might finde att this place A Mercate to Vend what they raised from their Industry and that the trade thereof might be more Regularly Managed the Said Inhabitants had power

Given them to make Laws Rules and Orders for the Government of the Same Trade & the good and weale of the Burgers and Inhabitants of the said Citty by which Reglement And Good Order this Citty did Encrease in People Strength and Riches to such A Degree that itt became the Envy of the Crown of England which thereupon fitted out A fleet Under the Command of Genll Nicolls who in the year 1664 did Reduce the Said Citty and Province Unto the Allegiance of his Majesties Said Crown of England And those Steps that were made by the Dutch Government for ye Encouragent of Trade & this Citty were Soe Reasonable that the English Governours haue successively as Aforesaid Confirmed the same Soe their being Such A Succession of Accord Among the Rulers and Supream Magistrates that have been from time to time Entrusted with [313] The Government of this Province both under the Dutch & English Administration in the Severall Changes from the first Settlement to the year 1694 that this Citty Should Enjoy all i'ts Franchises Rights and Privildges Aforesaid itt Cannot be A Doubt after soe Genll an Agreement Amongst Soe many Distinct persons the Rulers and Covernours of the Said Province Att Soe Many Different times and of Such different Circumstances but all those Customs Usages Practices &c: of this Citty are Reasonable And Even of the like force as if they were time out of Minde Since no time hath Obstructed them and all these Practices and Privildges Used and Enjoyed by the Said Citty in manner aforesd are not only highly Reasonable in themselves but warranted by the Conditional Settlements and Reservations, for while this Province was under the Dutch Government they were Soe Jealous of the Trade of this Citty that they would not permit any Settlement to be made in Any place within Sixty Miles Before but under Such Restrictions as they thought Necessary for ye Security of their Trade And particularly did Restraine the Inhabitants of Hudsons River and Long Island that they Should not Plant nor Manadge any parte of Husbandry without paying the tenth part of what they Raised unto the Government and besides did Oblige the Masters that they Should not Apply themselves to Any Trade but Only to Husbandry. And that the Inhabitants of Albany Should Only Apply themselves Unto the Indian Trade And All their Grants or Leases had this Reservation of Tenure in them Yielding Rendring and paying all Such Duties and Acknowledgments as are now Established or hereafter Should be by the Government Coll Nicolls Coll Lovelace & Sr Edmond Andros did Retaine the Said Tenures in all their Grants And Patents they made During their Respective Administrations of the Government Yett Nevertheless Soe great was the Clemency

of the English Governmt that they Removed from the husbandman that Grievious Yoake And placed in lieu thereof the bare Acknowledgmt of A Small quitt Rent Since which time by the [314] Providence of the Cittyzens of the Said Citty in finding out forreign Marketts for the flower Giving them good Rates for their wheat and Other Grains and Provisions they raise finding allways A ready Markett att this Citty and brought Great Quantities of Money into the Province in Return of the flower & Biskett that is transported as Aforesaid whereby the husband men are grown Rich and not only forgett thereby the former tasks and Obligations they lay under but also the Advantages they have and doe dayly reape by the Providentiall Care and Industry of the Merchants of New Yorke and in Return of all these Advantages Nothing Seems now to Satisfie them but an Annihalation of the Said City and that Every Plantation may be A Marte for Traffique and A Porte for Navigation Not Considering what itt is that Makes A Mercate or Gives life to Navigation. but the English Governours as well as the Dutch have likewise had An Esteem for trade and the Generall good of the Province that they would not permitt Any Incroachment to be made Upon the Priviledges of this Citty itt being the Only place Conveniently Scituated in the Province to be the porte of the Same and Only Capable of Improveing the Staple Commodity of the Province which is not only profitable by yt Improvemt to all the Inhabitants in the Province in Genll but Serviceable as formerly Regulated Unto all his Majesties Subjects in the West Indies. there was therefore A Nessessity that the bolting of flower for Transportation to be Confined Unto one Certaine place that itt might be Strictly Viewed and Examined that there might be no Mixture or Corruption therein ESpecially now Since itt is now become Soe usefull in Trade and on which the lives of his Majesties Subjects in the West Indies doe soe much Depend and itt is Apparent without Contradiction that the whole Province Cannot Afford another porte soe Conveniently [315] Seated for trade and the Transportation of the Said Commodity as this City and itt is absolutely Impossible to Manadge that trade Att Any Other place in this Province with honour to the King profitt to the people or lastly to his Majtys subjects in yt Plantations therefore itt is no Imposition nor Any Violence to property or Right of the Subject for his Majesty to Confine the Bolting of flower And Baking Biskett for Transportation to this Citty Only the Advantages Aforesaid being to the Common wealth and the Same Justly warranted by Reason Experience and the Laws of England which has Confined the making and sale of many Manufactures to One place only and particularly Greater Restrictions

Upon the Sale of Corne then Upon Any Other thing & ESpecially that None Shall be Sold or Soe much as Changed for seed but in Open Mercate how unlawfull must itt then be to make Every husband mans barne A Mercate for itt in the Province. Now all these Priviledges formerly held by the Citty of New Yorke are for the Common good because they bring A Benefitt to the King A Profitt to the Cittizens and to all his Majesties Subjects throughout the Province and to all Other that trade and Repair to the Same. In the first place they bring A Profitt to the King because there is A Revenue Established upon Trade that is to Say upon the Merchandizes Imported & Exported from the Said Citty by which the Charge of the Government is defrayed And the peace thereof preserved and the Subjects therein Secured in their Properties, for if the trade of the Province were not Confin'd to one Certaine porte and particularly to this Citty which is in A Manner Seated in the Centre for the Accommodation of all the Out Settlements itt would be Impossible to Raise Any Revenue. for if all the Creeks within the Province were Admitted to be ports y^e^ whole Revenue would not be Sufficient to Maintaine y^e^ Officers Proper for the Inspection of itt. Soe that if Any Alteration Should be of the Porte the Revenue must Certainly Sinke and that Benefitt Arising to the King lost and his Majesty thereby discouraged to Give us further protection; for itt Cannot be Imagined that y^e^ husband [316] Man Notwithstanding of his great Riches and Capacity to manadge the Trade of the Province as their barne doors would be willing by A Tax to Raise A Revenue to his Majesty for y^e^ defraying the Charge of the Government when there is Soe great A Murmuring in the payment of the Taxes that are Raised for the Security of the fronteers So that as that is A Monstrous body that is all head soe this Province would be Very Miserable if there Should be any Change of its head or Metropolis for itt would be Very unable Either to Secure itt selfe or Increase its Trade Soe that the Confining the Bolting of flower and Baking of Biskett for Transportation to this Citty brings A Certaine profitt to the King by the Revenue. and Albeit itt be the least and most barren Spott of Gronnd in the whole Province Yett for the Intercourse of Trade itt payeth Annually within A Small matter one third parte of all the Taxes of the Province besides the whole Revenue; Itt bringeth likewise A Benefitt to all y^e^ Cittizens And Others for Upon the Expectation of Traffique Merchants had Recourse to this Citty And the Inhabitants were Incouraged Upon the hope thereof to Transporte themselves and their Estates from their Native Country and fix att this Citty for if they had not found A Mercate here for what they brought they would

have been Discouraged & Returned but finding A Mart for what they brought And Other Commodities att this place Suitable for Returne they Continued their Trade and for the better Managemt of itt Settled themselues and laid Out A Considerable parte of their Estates in Buildings for the Accommodation of Traffique. which Bringeth them daily Advantages whereas if they had not depended that this place as itt were the Sole Mart of the Province Soe that itt Should Continue to be such they would have Transplanted themselves to Other places for Neither Mercht nor Tradesman Can live without Trade and Commerce and if itt were not for Trade No Man would be Encouraged to Improve more than [317] What he has Occasion for then this Vast Countrey would Neither be Subdued nor peopled. And that itt is for the Generall good of all the Inhabitants of the Said Province itt is Very Evident for before that Invention of Bolting flower the Husband men were Very low And Mean in their Stock buildings and Apparell & feeding and what they raised att soe low A Rate yt what they Produced from their labour did Very meanly Cloth them Whereas Since that time they began to Ply att New Yorke for Transportation the Navigation is Considerably Increased the Lands much more in Value the people better Cloathed the husband man much Eased of his labour by the help of Slaves And A Considerable Increase of the Stock of Cattle and Swine att double y^e Price of what they were formerly and for Instance about fourteen Years Agoe there was not above four hundred Neat Cattle Killed for the Service of the Inhabitants of this Citty and Now Neer three thousand Besides Sheep and Other Small Cattle which fully demonstrates that the Trade of the Province was Regulated and Confined to the Citty All the Inhabitants thereof doe thereby Receive Constant Profitt Whereas if Otherwise the Inhabitants of this Province would be like their Neighbours in Plymouth & Connecticut Collonies Virginia and Maryland who for want of A Publick Mart Resort unto this City have Very Idle Shiping belonging to them And their people Meanly Cloathed and ill Supplyed with Other things Necessary for Comfortable living.

All which Reasons may be Sufficient to Convince Any man of Business that by the Citty Holding and Enjoying all their former Rights And Priviledges and Especially y^e Right of the Sole Boking of Flower and Baking of Bisket for Transportation the King will have A Certaine Benefitt by the Encrease of his Revenue the husband man A Certaine [318] Profitt by having A Mercate for his Corne and the Province in Gen^ll A great Advantage by Encouraging the Citty whereby itt may Grow in Strength and Navigation.

The Mayor Informed this Court that upon A hearing before his Excellency the Governour and Council the last Council day the Petition of Cornelius Sebring for a Grant of A ferry from Nassaw Island to this City was rejected.

Resolved Nemine Contra dicente that this Corporation forthwith petition his Excellency the Governour for her Majestys Grant of all the Vacant Land upon Nassaw Island from High water to low water mark from the Wallabought to the Redhooke for A further Conveniency for the ferry of this City with power to Establish one or more ferrys if there Shall be Occasion and A Confirmation of the same under A Moderate quitt Rent and at Reasonable Rates &c:

Resolved that the sum of three hundred pounds be Raised by this Corporation to be Imployed & laid out for the procuring A Grant for the same

The following Petition was read and Approved & Ordered to be Engrossed & that Mr Mayor Mr Recorder and Alderman Provoost or Any two of them be A Committee to present the same.

To His Excellency Edward Viscount Cornbury Capt Genll and Governour in Chief of the Province of New York &c: and Territories depending thereon in America & Vice Admiral of the same &c:

[122] The Humble Petition of the Mayor Aldermen & Commonality of the City of New York

Most Humbly Sheweth

That the Petitioners having A Right and Interest in the ferry from this City to Nassaw Island and from the Said Island to this City again and to all the profitts and Advantages thereof perceive itt to fall much short of what they might reasonably Expect from the same if the bounds and Limitts of the Said ferry were something Extended on the Said Island side whereby to hinder and prevent that Priviledge and liberty which divers persons now take of Transporting themselves and Goods to and from the said Island of Nassaw over the said River without Coming to or landing at the usual and Accustomed places where the said ferry boats are Kept & Appointed to the great loss and damage of the Petitioners (the profitts thereof being wholy Appropriated for the publick service and Government of the said City[)]. And it being Obvious to your Petitioners that some private persons for their own Lucre and Gain have solicited your Excellency for Another ferry on the said Island fronting to this City which if Granted would be of great damage to this Corporation & all the Inhabitants thereof and as the Petitioners humbly Conceive would in time not only prove Injurious

to the Trade and Commerce of this City but also be A means to lessen the Income of her Majestys Revenue Established upon trade to the General decay of the Province (the Improvement thereof Imployed now in Traffique being scarcely able to Maintain the Inhabitants now in this City whose livelyhood does only rely thereon[)].

Your Excellencys Petitioners therefore most humbly pray that Your Lordship will be favourably pleased to take the premisses into Your prudent Consideration and Order her Majestys Grant unto the Petitioners and their successors for all the Vacant and Unappropriated Ground on Nassaw Island from high water to low water Mark fronting unto this City from the place Called the Wallabought unto the Red hooke against Nutten Island for the better Improvement and Accommodation of the said ferry and also that your Excellency would be further pleased to Order unto the Petitioners and their successors her Majestys Grant of Confirmation for the Said ferry on both Sides of the Said River with power to Establish one or more ferrys if there Shall be Occasion & to make by-Laws for the more Orderly Regulation thereof at Such reasonable Rates and under such Moderate quitt Rent as your Lordship in your great prudence Shall see meet

And your Excellencys Petitioners as in duty bound Shall Ever pray &c:

[123] The Committee Appointed to View what Repairs were wanting to the ferry house &c: on Nassaw Island, Report that the Glass Windows of the Said house want mending, That the Barn wants several Repairs, that the Well wants Some Repairs, That the fence of the Penn wants Repair and the Stairs going out of the house, that the Chimneys and the house wants plistering in several places of which Repairs wanting they Acquainted Direck Benson the Lessee of the Said ferry who promised forthwith to Amend and Repair the same According to his Covenants

and by this Court presented to the Honble the President and the Rest of her Majestys Council of this Province. in Council (Viz:)

To the Honble Gerrardus Beeckman ESqr President and the Rest of her Majestys Council of the Province of New York.

The Humble Petition of the Mayor Aldermen and Commonality of the City of New York Convened in Common Council

SHEWETH That as Nothing Contributes more to the hapiness of A People than plenty so Nothing is more deplorable than the want of bread which seems at this time to threaten this Colony (and in a more Especial manner this City the Metropolis thereof) Occasioned by the illegall and undue practices of Several of the Inhabitants thereof as well as Agents from the Neighbouring Colonys who for some time past have, and Still Continue to Engross and Monopolize all the wheat both in City & Country as well for Transportation as to sell again in this Country at unreasonable prices for their own private Lucre and gain to the Grievious Oppression of the poor. and the Arrival of three thousand four hundred Palatines from Great Brittain being dayly Expected here who must be Supported with the Nessessarys of life will yett render the want of bread more Grievious by the great Consumption they must Nessessarily make if the Impending danger be not Speedily prevented.

Your Honours Petitioners therefore most humbly pray that your Honours will take the premisses into your serious Consideration [170] And direct such Effectual Measures for preventing the Mischiefs Aforesaid as to your Honours great Wisdom and prudence Shall seem just and reasonable

And your Honours Petitioners as in duty bound Shall pray &c:

The Committee appointed the 29^th day of November last to Audit the Books and Acc^ts of the Treasurer of this City and to Settle & Adjust the Books and Accompts of this Corporation Make their Report in hæc Verba (Viz^t)

Pursuant to an Order of Common Council bearing the twenty Ninth day of November last past to us directed for Auditing Settling Adjusting &c: the City Accounts and Books of the late Treasurers of this Corporation &c: We have Stated in Regular form y^e yearly Treasurers Acc^ts and some Other Acc^ts of this City from the 14^th of October 1700 to the 14^th October 1706 hereunto Annexed the two former years (Viz^t) Anno 1698. & 1699 the first being Stated by the then Treasurer and Audited by Committees of the Common Council as p^r the Minutes of the old Common Council [171] Book page 406. 409. & 421 Appears to Which Referr. the Latter by Auditors Judicially Appointed by the Supream Court, the Report of those Gentlemen as also their Report on the Acc^t of Capt. Beyvanck being both Regularly Entred by us in this our Annexed State the Ballance due there by & from Sundry Persons to the City Appears to be £645 — 18 — 10½ Some of which Persons have City Warrants in their hands toward payment of their several Ballances, Others wee are Satisfied have no Such Warrants who Ought severally to pay their several Ballances in the City Treasury.

Wee have also Examined the Common Council Books for ten years

and by the help of those Minutes and the Imperfect Papers and Acc^ts^ wee found (in the Present Treasurers Town Clerk's and Other Citizens hands) have to the best of our Abilities made this our State all which has Occasion'd us no in Considerable trouble and pains whereby it Appears to us Considerable Sums of Money belonging to the City besides the above £645—18—10¼ to be in the hands of former Mayors Aldermen Treasurers and Other Citizens.

The Annexed yearly Acc^t^ we are of Opinion Ought to be Copyed in the New Books of Accts of the Corporation purchased by the City for that use Either by the Present or late Treasurer and the yearly Acc^ts^ since October 1706 to this day also Stated in Order to an Audit against the Next Meeting of the Common Council

And for Preventing of the like disorder of the City Affairs and Acc^ts^ for the future which hath Cost the Corporation in Law suits &c: (besides all Other Grievious Charges damages and Losses) upwards of £200 is Our Opinion

That the Treasurers keep A Particular Acc^t^ of the several Branches of the City Revenue, Arising by the Ferry Dock Fines Lycenses Freedoms Taxes &c: Entring in the City Journal the Persons Names taking their Freedoms Lycenses &c: with the sums Receiv'd of them Charging the Payments to the Ferry Dock &c: as the same become due and discharging those Acc^ts^ by the payments made by which the Corporation may at all times know what is due and to Come in and when which Otherwise they Cannot.

That the Treasurers upon the producing of any City Warrants drawn on them if they have not Money to discharge Said Warrants give the Person to whom Said Warrant is payable an Acct. in the City Books Mentioning the date sum and Number if Any and [172] for what whereby the Corporation may at all times know what they are in debt. That the Warrants being Numbred be paid by the Treasurer in Course (Sallary Warrants Excepted) Pursuant to their Numbers and Not Otherwise Except out of funds Appropriated or Special directions given in Said Warrants to be hereafter given or Warrants Granted before that date.

That no Treasurer hereafter to be Elected Officiate, upon A Penalty to be Ascertained by the Common Council before he hath given Bond

with Surety or Sureties for the sum of one thousand pounds to the liking of the Common Council to keep the City Acc^ts and make the payments Pursuant to the above scheme. and when Superseded to deliver the City Books of Acc^ts Stated as above together with all the City Papers in his hands as also what Money upon Audit of his Accts Shall Appear to be Remaining in his hands within fourteen days after his supersedure and in Case he Continue longer than one year in that Office to make up and State the City Acc^ts as before ready for an Audit within fourteen days after his second Election.

That upon the Election the New Treasurer be Acquainted on what Terms he is to Officiate his Office which if Refused by him Another be Elected, which if refused by him Others to be Elected untill one be found that will Officiate.

That upon the Coming in of A New Treasurer the old Treasurer having performed all the Conditions of his bond the same be delivered up to him with A Release Executed by the Mayor under the City seal by Order of Common Council he delivering all the City Warrants by him paid to his Successor.

That upon the Election of A New Treasurer the old Treasurer be only allowed half Commission for the City Cash Remaining in his hands and paid by him to his Successors and that the New Treasurer have also only half Commission for what Shall be so received by him of his Predecessor

That no Warrants on the Treasurer be drawn (Sallary Warrants Excepted) but where the Acc^ts have been first Audited Conformable to previous Orders of Common Council.

That the Clerk upon his Drawing of Warrants Number them and at the same time deliver the Acc^ts Audited as Aforesaid to the Treasurer to be by him Kept and fyled.

[173] That all Committees for Auditing of Accts if they Suspect the Vouchers produced to them to be Surreptitiously Obtained may make the bringers in of those Acc^ts Swear to their Acc^ts

That all the City Magistrates Officers and Others that have or Shall Receive any Money on Acc^t of the City Shall Account with the
